How to write up binary logistic regression apa

How to write up binary logistic regression apa

What is the difference between linear **regression** and **logistic regression**? When would you use each?. As far as I understand the Wald test in the context of **logistic regression** is used to determine whether a certain predictor variable X is significant or not. It. **Logistic regression** is part of a category of statistical models called generalized linear models. This broad class of models includes ordinary **regression** and ANOVA. There are 3 major questions that the **logistic regression** analysis answers – (1) causal analysis, (2) forecasting an outcome, (3) trend forecasting. The first.
